Motion failed.

Groenendyk made a motion to move the decision to the end of the meeting. The motion died for lack of a second.

Landfill Manager's Report

Equipment- The landfill compactor is using/leaking coolants from an unknown place. Cat is coming out to see where or what the issue is.

Liquid Waste started deliveries on May 28. We have consistently taken loads since then. The process has been a learning curve for us and Cargill with the thickness of the material and how to manage it in the active face. Mike Smith came out the second day and watched the material get solidified.

MCG's E-cycle Event resulted in 45,285 lbs. in 2025 an increase of 15,889 lbs. from 2024.

Joe will be on vacation for these next two weeks with limited phone service and email.

Landfill Gas Migration Action Plan- Phillips motions to approve the proposal as well as asking for an extension, seconded by Groenendyk. The motion passed unanimously.

Adjournment

Motion to adjourn the meeting at 7:53 PM made by Groenendyk and seconded by VanderBeek. The motion passed unanimously.

Respectfully submitted by Deb Danley.
